Education

Ramgarh Engineering College

Bachelor of Technology in Computer Science & Engineering

Jharkhand, India

2024 – 2028

- **Grade:** Current Cumulative Grade Point Average (CGPA) of **7.1/10.0**
- **Leadership:** Student Coordinator of **Team Udaan** (University Technical Club)

Technical Skills

Languages: TypeScript, JavaScript, Kotlin, C++, HTML/CSS, SQL (PostgreSQL), Bash/Zsh Scripting

Frameworks & Libraries: React, Next.js (App Router), Express.js, Node.js, Jetpack Compose, Framer Motion, Tailwind CSS

Databases & Integration: PostgreSQL, MongoDB, Firebase, Supabase, Stripe Core API, Web3Forms, Formspre

Tools & Platforms: Git, GitHub, Docker, Linux (Ubuntu/Kali), Vercel, VS Code, Android Studio, Figma

Cybersecurity: Wireless Security Auditing, Penetration Testing (Hashcat, HcxTools, Bully Frameworks)

Experience

TechXquad

Frontend Developer Intern

Remote

June 2025 – July 2025

- Developed and shipped customer-facing web application features using **React** and **JavaScript**.
- Built responsive UI components and implemented lazy loading, reducing overall page load times by **30%**.
- Collaborated with cross-functional teams in **Agile/Scrum** workflow, integrating **RESTful APIs** for frontend-backend data flow.
- Implemented unit tests with **Jest**, achieving **85%+** code coverage and reducing production bugs.

Team Udaan

Web Development Member

REC Campus

Aug 2024 – Present

- Collaborated with team members on **React-based** web applications for the university technical club.
- Participated in hackathons and technical workshops on **React**, **Git**, and modern frontend engineering practices.
- Helped build and maintain web tools used by **500+** students across the campus.

Projects

CipherXDev – Engineering Studio Website | *Next.js, MongoDB, Next-Auth, Three.js, Framer Motion* 🌐

- Architected a full stack engineering studio platform using **Next.js App Router**, **TypeScript**, and **MongoDB** for dynamic data.
- Engineered an immersive, mobile-first UI with **Tailwind CSS**, integrating **Three.js** and **Framer Motion** for 3D web experiences.
- Implemented secure authentication with **Next-Auth**, state management via **Zustand**, and **SEO optimization**; deployed via **Vercel**.

Link Vault – Full Stack Link Manager | *React, Tailwind CSS, Node.js, Express, MongoDB, JWT* 🌐 🌐

- Architected and built a full stack CRUD application with **React** and **Tailwind CSS** frontend, **Node.js/Express** REST API, and **MongoDB** database.
- Implemented user authentication with **JWT**, protected routes, and full CRUD operations for link management with tag-based organization.
- Deployed on **Render** (backend) and **Vercel** (frontend) with **CORS**, environment config, and secure API endpoints.

Leadership & Interests

Ethical Hacking & Systems Security

Active Researcher

Self-Directed

July 2024 – Present

- Conducted wireless communication security audits on local access points in controlled sandbox environments.
- Analyzed access point boundaries using WPA/WPA2 packet analysis suites (Hashcat, Bully, hcxdumpool) in secure labs.
- Applied secure backend practices: **input sanitization**, **encrypted transmission**, and API security hardening.
